It is understood he will be appointed Lieut.-Governor of Nova Scotia.

Among those transferred are the old trails from Troy to Prince Albert, from Swift Current to Battleford, from Calgary to Edmonton, from Calgary to Fort Macleod, from Blackfoot crossing to Fort Macleod and others.

Thirty million pounds worth was applied for, being ten times the amount put on the market. The C. P. R. securities are now worth from a half to five per cent premium.

Lord Stanley the newly appointed governor general of Canada, was interviewed at Mouville to-day. He said he had acquired by his experience in the Colonial Office an accurate knowledge of Canada's vast resources, and said he was greatly impressed with Canada's possibilities in the future.

MOUVILLE, June 2.—The two governors exchanged salutations as the steamer bringing home the Marquis of Lansdowne late governor of Canada, passed inwards, the steamer with Lord Stanley, the new Governor General on board passed out of port, coming so near each other that the two governors exchanged salutations.

VICTORIA, B. C.—The crew of British ship Silverdale mutinied when two days out from Port Discovery. She was laden with lumber for Melbourne, Australia. They anchored the vessel in a dangerous position, where she remained two days, but Wednesday got into Tatoosh, when the officers telegraphed for help. The Silverdale was towed into Esquimaux, and the mutinous crew are in jail here.

OMEGA.

A TRIFLE SWINDLE.

Charged Against two men in the Hands of the Police.

A couple of rather genteel looking strangers, apparently Americans, entered G. H. Riley & Company's store about ten o'clock Saturday night, one preceding the other by a few minutes. One of the men having made a purchase of twenty-five cents, gave Mr. Riley a ten dollar bill in payment, which that gentleman changed, giving his customer as change, a five dollar and four one dollar bills and seventy-five cents in silver. The man put the five dollar bill in his pocket and suddenly remarked that after all he had twenty-five cents change, and throwing a piece of that denomination on the counter he asked to be given a five dollar bill instead of the change. Mr. Riley laid a five dollar bill on the counter, when at this point stranger number two, who pretended not to know the other, suddenly called Mr. Riley's attention to some hair brushes, which he enquired about. After Mr. Riley's attention had been distracted in this way the first stranger remarked that instead of the ten dollars on the counter he would prefer his ten dollar bill back. Mr. Riley on the spur of the moment handed the ten dollars over, taking the change on the counter in return. This man then went out, the other bothering Mr. Riley the whole time about the hair brushes. Finally the two went out having bought nothing. A few moments later Mr. Riley realized that the man had received \$5 overcharge and regarding the whole proceeding as a swindle notified the chief of police. In a few minutes the energetic officer had both men under arrest. By similar tactics as employed in this case the same men are charged with having obtained five dollars both from Trotter's drug store and Ferguson & McMurtry's grocery. The clerk of the former firm subsequently obtained the overcharge got from his firm from one of the men. The chief brought his prisoners, who gave the names of Frank Field and J. S. McCarthy, before mayor Shelton this afternoon.

A Train's Narrow Escape.

The train from the east due at Calgary on Sunday morning had almost a miraculous escape from destruction at Gravel river, north of Lake Superior. A short distance before the train was due to arrive at the bridge over the river mentioned some section men chanced to pass along and noticed that one of the massive granite

abutments of the bridge had been undermined by the increased flow of water and had settled down, leaving the heavy iron track bed swinging over the river. A signal was sent back to the next station and the train stopped. This washout delayed the train twenty hours and on arrival at Winnipeg it was cancelled and the passengers taken on by the next day's train. This explains why there was no westward bound train Saturday.

Opening of the Bow-Marsh Bridge.

Bow-Marsh bridge was opened for public travel on Saturday afternoon, with considerable eclat. About 4 p. m. a procession was formed at the Royal Hotel corner. The Odd Fellow's brass band was in attendance and headed the procession, playing lively airs on the march. The mayor and several councillors were in the party. There were about 25 carriages occupied by ladies and gentlemen, and a large number of people on foot. Through some mistake the bottle of sparkling wine for christening the bridge was forgotten, and the ceremony had to be performed with sparkling water from the Bow River. On account of two of the candidates for the Northwest Council being out on a canvass, the wheelbarrow race did not come off. It is stated that Mr. Reilly offers to run his opponents a foot race across Langevin bridge on the same conditions as the other race was to have been run, namely, that the last man shall retire, and allow the others to go in by acclamation. Short speeches were made by Mr. Prince, Mr. Amos Howe, Mr. James Heilly and Mr. Registrar McLean. Everyone was glad to have this bridge completed, as it will be a great convenience to a large number of people now settled, and the many who are about to settle along the north side of the Bow River, to the west. Rousing cheers were given for Mr. Prince, the contractor, who has pushed the construction of the bridge with such vigor, and for Mr. G. C. Marsh, who has taken an active part in promoting the scheme of having the bridge built. The party returned to town about 5:30, led by our fine band. Information having been received by some of the wide awakes, that there was a cache somewhere round, a short detour was made by a deploying party, and our reporter was informed that a keg of Carling's—got awful badly used up. If a small amount of money were spent on the road north of the Bow, between Langevin and Bow-Marsh bridge, and the mission bridge hill road repaired, Californians would have one of the finest drives to be found in Canada, crossing the four bridges and making a circuit of the town in a trip of about five miles. The views and scenery all the way are truly magnificent.

LEFT THE TRACK.

Serious Accident on the Calgary Lumber Co's. Tramway at Cochrane.

COCHRANE, June 4.—An accident, which was nearly attended with fatal results, occurred to-day on the tramway of the Calgary Lumber Co's., at Cochrane. A train carrying Lieut. Cochrane R. N., and party, consisting of Lord and Lady St. Maur, Lady Adela Cochrane and others, as well as a number of mill hands was ascending the grade near the mill when one of the cars left the track, throwing one of the mill hands, Fred Thompson, off the car and on to the track under the engine, which was pushing behind the train. The flange of one of the driving wheels took off Thompson's right ear and he was badly cut about the head, and the skull slightly fractured. The rest of the party were badly shaken up, but escaped without serious injuries.

WINNIPEG, June 4.—The Morning Call office in this city was completely destroyed by fire early Sunday morning. The building and machinery are a total wreck. The loss is \$35,000, insured for \$26,000. The purchasers are H. J. Boemer, contractor, who holds the charter for the Gatineau Valley Railway now under construction and which would be a feeder to this road, Rev. Father Labelle, who is engaged constructing a railway from St. Jerome to Lake Temiscouata, which will be another feeder, Hon. J. A. Chapleau and Dr. Church, directors of the Pontiac & Pacific Railway, in addition to some others.

The new Lieutenant-Governor.

Mr. Royal, who is to succeed Mr. Dewdney as Lieutenant-Governor of the Northwest, arrived at Winnipeg from Montreal on Friday last. Mr. Royal, speaking to a HERALD correspondent, remarked that he returns to Ottawa in a few days to post himself as to the new duties and to be sworn in. He expects to arrive in the Northwest about the first of July and will pay Calgary a visit soon after. He intends if possible to visit all the agricultural fairs in the Territories this year and hopes to make a trip to the far north next summer.

THE PACIFIC CABLE.

The Route to be Surveyed—Ottawa News.

OTTAWA, June 4.—It is announced to-day that the Lords Commissioners of the British Admiralty have sanctioned the employment of Her Majesty's ship Egeria to survey a route for the mail steamers and for laying a submarine cable between British Columbia and Australia. The survey is likely to occupy three years. It will cover an expanse of water 200 miles for the entire distance. It is impossible to describe the precise route, but it will commence from some point on the east coast of Australia and proceed via the extreme northern coast of New Zealand, thence to British Columbia, passing by the Fiji Islands and connecting with the Canadian Pacific Railroad.

The Dominion revenue for May amounts to \$3,232,593, an increase of \$261,441 over the corresponding month of last year. The revenue for the 11 months of the year is \$31,856,725 and expenditure \$29,452,214.

It is probable that the Hon. J. A. Chapleau will visit the Northwest during the summer. Henry Knowles, of Brantford, who was injured during the bicycle race at Ottawa on the 24th of May died to-day.

Sheridan Growing Worse.

WASHINGTON, June 1.—General Sheridan's condition is growing worse to-day.

THE GALT RAILWAY.

We learn from a gentleman, who travelled in company with Sir A. T. Galt from Ottawa to Medicine Hat this week, that there is a probability of this road being built very soon. It is stated on what appears to be good authority, that the Government fully intend to grant the privilege of building railways to the American line, but there were two reasons why this road did not get a charter last session. First they were too late in making their application, and had a charter been granted, it would have been contrary to parliamentary proceedings, and consequently illegal. The other reason was that the monopoly surrender was not signed, and it would have been very foolish for the Government to grant any charters until the documents in the agreement with the C. P. R. were signed, sealed and delivered. No man would have done different in his private affairs, from what the Government have done in this case.

We believe that Sir A. T. Galt has received such assurances from the Government, that his application will be granted next session, as will warrant him in making preparations at once for building the line from Lethbridge to Fort Benton, so that when the charter is granted he will be in a position to go on with the work without delay. The point of great importance to the people of Calgary in this connection, to consider, is how all the foregoing if correct, will affect our interests. If Sir A. T. Galt gets a charter and land grant from Lethbridge to the line, will any other company get a charter and land grant from here to the line, and if not, we will be as land locked as ever. We are not able to state from memory whether Sir A. T.'s application was for a road extending to Calgary or not. If Galt will build a line here, he could furnish us coal at \$5.00 per ton, and make as much money out of his coal as he does now, when we have to pay \$8.00 for it. If Galt will extend his line to Calgary and give our northern line running powers, or enter into freight arrangements for a long term of years with the A. & A. railway, the future prosperity of Calgary would be secured. We earnestly appeal to all our citizens who take any "thought for the morrow," to buckle on their armor, and see that Sir A. T. does not get exclusive privileges, unless he will build to Calgary, and guarantee coal and other freights, or otherwise give running powers over his line from Lethbridge to Benton, to a company to be formed at Calgary for building a line from here to Lethbridge. We are at present in more danger of the town becoming depopulated for want of coal than ever. The Anthracite Co., if they do get freight rates arranged with the C. P. R., have such vast contracts at the coast cities and the Pacific islands,

that Calgary will hardly be thought of. The C. P. R. are negotiating for the purchase of the Vaughn mine, and are now taking all the coal that Major Vaughn can get out.

Horse Notes.

There are sixteen horses at present quartered at the Manchester, N. H., driving park.

W. J. Gordon, has entered Guy in two events at Detroit, and Miliard Saunders is training him for them.

The trotting stallion of Honore Fitzpatrick, Laporte, Ind., broke his leg recently, and was shot.

The chestnut mare Bessie, 2:17½, by Blue Bull, dam Patrick Henry, has been bred to Viking, 2:20½, by Bennett.

During the first year of Commodore Kiltoun's purchases, 1881, he invested more than \$200,000 in horseflesh, chiefly trotters.

Lucian Swift, of Minneapolis, Minn., has purchased from B. H. Hellen, for \$600, a fine pair of old-time mares for road use.

Sire Bros., New York, have purchased from J. S. Clark the bay geldings Andy Mac and Little Volunteer, giving Baby, 2:29½, in part payment.

John Bradburn, of East Aurora, N. Y., has sold the pacing mare Ethel Y., 2:29½, by Mohican 608, dam by Doherty's Son of Royal George, for \$500.

It is now positively announced that Frank Van Ness will this season drive Harry Wilkes, Rosaline Wilkes, Gossip, Jr., and others of Sire Bros.' string.

The record of English jockeys on the flat up to May 5 showed F. Barrett and J. Watts to be a tie with twenty-five wins for first place, S. Leates coming third with twenty.

A. J. Cassatt, owner of The Bard, winner of the Brooklyn Handicap, is now in England, and it is reported that before he returns he intends purchasing for his American stud the best two-year-old foreign-bred horse that \$30,000 can buy.

Canadian papers say that Cope Stinson, the well-known and popular trainer, of Brantford, will shortly take control of the trotters owned by C. F. Emery, of Forest City Farm, Cleveland, O., the position now so ably filled by Mr. Fuller.

Close observers of the Prince of Wales on the race course say that if he has won money on a race he tilts his hat over his eyebrows and talks rapidly to anyone who may be with him. If he has lost he takes his hat off, wipes his forehead with his handkerchief and maintains a severe silence. A man who says nothing when he loses a race possesses an element of greatness.

It is nerve and brain, rather than muscle or mere physical power, that will enable a horse to win a race. Plenty of thoroughbreds will go their level best until they drop. It is useless to whip that kind of an animal; all such animals are born fighters, and exult as much in a victory as their owners. Such racers have also superior intelligence, and if they are not too high strung they can be trained in the arts and tricks of the turf.

Patsy Cardiff and Pat Killen have met in St. Paul and signed articles for a match of fifteen rounds with two ounce gloves, under revised Marquis of Queensberry rules. The mill is to take place in the Washington Rink, Minneapolis, on June 26, the winner to receive 75 per cent of the gate receipts.

Grand Opening Affair.

It is proposed to have a big send off opening of the Bow-Marsh bridge, across the Bow river to-morrow afternoon. The Odd Fellow's brass band are expected to be present. The champagne will be drunk to the time of "I'll never cross the ferry." A procession is to form at the Royal Hotel corner at 4 o'clock, which will be headed by the band. The mayor and council are to follow, we have not learned what the order of the rest of the procession will be, but as the matter is under the direction of Brigadier G. C. Marsh, no doubt it will be all O. K. On account of the scarcity of champagne, it is proposed to christen the bridge with a bottle of John Field's Florida water, and apply the champagne inwardly, several Indians have been invited to give an exhibition of their old war drill and war whooping on the new bridge. It has been suggested, in order to decide which of the three candidates for the Northwest assembly should withdraw, and let the other two go in by acclamation, that the aspirants shall run a wheelbarrow race across the bridge, John Lineham to have three feet two inches of a start, and Mr. Reilly, on account of sore hand, to run one of Jacques' bicycle baby carriages. A shooting match is proposed, in which the first gentleman who can shoot the green seal off a bottle of champagne without breaking the bottle, may treat his friends with the contents. All persons having horses and carriages to spare, are asked to bring them to the Royal, so that their poor friends can ride to the show. Ladies admitted to the grounds free, gentlemen half price. Col. Hodder and Commodore Prince, field marshals.

The I.O.O.F. have purchased the instruments from the members of the late Calgary Brass Band and organized again with Mr. Scollen as leader. The new band will be called "The Odd Fellows Brass Band of Calgary" and they start out with everything in first class order and are ready to fill all engagements. The following are those who have joined: Wm. Scollen, H. McClelland, M. R. Corner, Harry Kisk, W. H. Kinnisten, Jos. H. Millward, J. J. Hastings, Geo. Fraser, W. E. Bowen, E. Watson, Wm. Kerr, Mr. Saunders. The following were elected officers: W. Colten, teacher and leader; H. McClelland, sec'y; treasurer; representative of I.O.O.F., Jos. H. Millward. These three gentlemen are the committee for making all arrangements for playing, &c. It is the intention of the band to give the citizens of Calgary some open air music during the summer and the band would like to see the council erect a band stand, say on the station square.

Bank Sessions.

Three interesting liquor cases were heard on Wednesday, the 30th. May, before Major Harper, J. P., in which Mr. W. L. Bernard, advocate and barrister of Calgary, represented the defendants.

The first case was that of David Keefe, of the Bank Hotel, who was proceeded against under the N. W. Territories Act for having intoxicating liquor on his premises without permission. It appeared by the evidence of Corporal C. H. Dee who gave the information, that having a suspicion there was contraband liquor on the defendant's premises, he and three other men of the Mounted Police searched the premises on the 21st. of May and found nothing, save a bottle of spirits in the possession of Mrs. Keefe. Corporal Dee acknowledged having boarded upwards of a year ago, and before he left them, presenting Mrs. Keefe with a bottle of contraband liquor out of kindness, for medicinal purposes, to be kept secret from her husband, and alleged that the bottle found did not contain the same spirits. The Corporal denied having given liquor to anyone else especially to a servant employed in the hotel.

An interesting illustration was acted before the court of the mannes in which Corporal Dee and another officer took the bottle by force from Mrs. Keefe, who was in an excited state, from having a bottle presented to her, being taken away, and made a means of prosecution. Mrs. Keefe gave evidence that the liquor contained in the bottle was what had been given her by Corporal Dee, and the servant gave evidence contradicting the evidence of Dee, and swore that he gave her a small vial full of spirits for toothache. The Court, notwithstanding, discredited the fact that the same spirits were contained in the bottle that had been given by Corporal Dee, and having regard to a previous conviction at Maple Creek, ordered Defendant to pay \$200 and costs, or in default six months imprisonment. The defendant appealed, and the appeal will be heard before the Supreme court at Calgary in due course.

The second case was that of Charles Kenny, who was accused of importing spirituous liquors into the N. W. Territory on 22nd. Jantarr last, but Mr. Bernard having satisfied the Court that there was no legal evidence of the spirits having been in defendant's possession, the summons was dismissed.

The third case was that of Garrett Keefe, who was proceeded against on information of Charles Leroy, a hotel keeper in Banff, who purchased liquor from defendant at various dates and produced account books showing money paid and receipt for part of same. The court refused to receive the evidence tendered of the incompetency of Leroy to give testimony, he being so upset in mind by having been convicted himself at the time of giving information on the 25th of May and ordered defendant to pay a fine of \$200 and costs or in default six months imprisonment. Notice of appeal was handed in to the court. We understand that number of persons have been recently convicted in Banff for liquor offences.

French Republicans in convention resolved to combat Southernerism and employ every means to prevent a Cæsarean reaction.

Public Meeting.

In compliance with a notice by the mayor, a public meeting was held in the fire hall last night, to hear a report from the council of the amount of debt carried over from last year and the expenditure of the current year to date, and also to discuss the advisability of submitting a by-law for issuing debentures to raise money for public works this year. The statements made by the different chairmen of their different departments and by Mr. Collins, chairman of finances, were so clear and so well understood that it is not necessary to repeat them in detail, especially as it is likely the statements will be repeated at another public meeting in a short time. The substance of the financial affairs were that there was a debt of about \$10,000 carried over from last year, which the present council had to provide for. As there has been but little revenue collected this year, not enough to cover the running expenses to date, there is still about the \$10,000 of debt hanging over the town. Add to that the sums required to pay instalments and interest on debentures, the amount necessary for the schools, and for the ordinary running expenses, will bring the total sum to be provided (without going into public works at all except trifling things) up to about \$21,000. Unless some debt is bequeathed to the next council as was done by the last council. It is generally known that the assessment this year is about \$1,450,000, with a possibility of it being cut down at the court of revision. The townsite trustees have given notice that they will resist payment of taxes on about a quarter of a million dollars assessed to them, and though the town will likely get the taxes finally, they will not be available for this year's expenditure, that deduction will leave the assessment about \$1,200,000, with a probability of it being further reduced at the court of revision by \$100,000, leaving the next assessment at \$1,100,000. It is more than probable that there will be at least \$100,000 of that amount on which taxes will not be paid in time for this year's use, so the position seems to be about like this, the town have one million dollars to collect taxes from and the sum to be paid without further expenditure on public works will be from \$21,000 to \$22,000. It will be seen if that no money is borrowed, no permanent public works are proceeded with and no debt left over, the taxes will be about 22 mills on the dollar. Much speaking was done too long to report. A resolution was moved by Mr. A. Lucas, seconded by Mr. Baillie, that in the opinion of this meeting it is desirable that the council should prepare a well defined plan of the improvements they propose to make including a system of sewage and submit it to a public meeting. An amendment was moved by Mr. John L. Bowen, seconded by Mr. Joseph Maw and carried that a by-law be submitted authorizing the issue of \$20,000 in debentures for town purposes. We will refer to this matter again very soon.

Department of Trade and Commerce.

OTTAWA, May 30.—It is quite improbable that the act creating the Department of Trade and Commerce will not be brought into effect while Messrs. Bowell and Costigan retain their present offices, as it is understood Sir John is unwilling to lose the services of either of these gentlemen in their present positions. There is no immediate prospect of the Minister of Railways retiring from work. The reports to the contrary are totally foundationless.

The announcement of Mr. Dewdney's appointment to the Interior is premature, but there is no doubt that considerable pressure has been brought to bear on the government from the Northwest to appoint him to the position. The appointments of Lieut. Governor of Manitoba, the Northwest and Nova Scotia will not be made till July, and no doubt Schultz and Royal will be appointed to Manitoba and the Northwest. The reports to the Comptroller of the Mounted Police, everything quiet in the Territories and Kootenay valley.

Jeffrey McCall, annexationist, M. P. P., will oppose C. H. Tupper, the new Minister of Marine and Fisheries on offering for re-election.

Presbytery of Calgary.

A meeting of the Presbytery of Calgary was held in Knox church yesterday. There were present Revs. Dr. Robertson, superintendent of missions, A. Robertson, the moderator, J. C. Herdman, clerk, James Herald, of Medicine Hat and A. H. Cameron, of Donald. Mr. A. J. McLeod, B. A., missionary at Banff, was examined and received a license, and in the evening at a full meeting held in the church, was duly ordained to the full work of the ministry by the laying on of the hands of the presbytery. Arrangements were made for the building of a church at Banff and for supply of vacancies and of new fields. Rev. A. H. Cameron gave in his resignation of his charge at Donald and contiguous points, which was accepted after the regrets of the presbytery had been expressed and a suitable minute put on record testifying to his worth and work. The presbytery closed its proceedings last night at a late hour to meet again in Calgary on the 5th September.

Superintendent White, of the C. P. R., arrived from Winnipeg in his private car at 8 o'clock last morning, and went on to Banff an hour later.

Our telegrams of to-day strengthen the report that Governor Dewdney will be appointed to the vacant portfolio of the Interior and will also be made Superintendent General of Indian Affairs.

It will be noticed in our Ottawa news to-day that the Anthracite Coal Company, of the Anthracite, Alberta, coal mines, paid in to the Department of the Interior, \$54,000 for coal lands. That transaction has a business air about it.

Mr. W. L. Bernard, barrister, advocate, &c., law agent and managing director in Canada of the Canadian Pacific Colonization Corporation (limited), has taken offices on Stephen Avenue, Calgary, over Thomson's bookstore.

Sergeant Jarvis is up from tileichen with an Indian that had been stolen by a horse. The way it happened was the poor Indian got on the horse, when the horse galloped off with him. In order to prevent any such accident happening again, the Sergt. brought the Indian up to the Calgary barracks for safe keeping.

Major John Stewart, one of the directors of the Anthracite Coal Mine Company, is in town on his way to the mines.

Rev. Leo, Gaetz, who is in town met by appointment Mr. and Mrs. James Morris and Mr. A. Willet, son of S. T. Willet, of the celebrated Chamblay woollen mills at Chamblay, P. Q. Those parties go out to-day in company with Mr. Gaetz to make their home at Red Deer.

The auction sale of Mr. Henry Blecker's furniture, which took place at his residence on the east side of the Elbow River at 2 p. m. yesterday was well attended, and the prices obtained were fairly satisfactory. There was not time to get through the whole list of goods for sale, and the sale will be continued this afternoon at

Mr. Thos. Gordon Oliver, of the "Monetary Times," Toronto, is remaining in town to-day getting information for that Journal. It is about time the "Monetary" had waked up to the fact that there is a country here, a fact it has hitherto ignored, though the greatest journals of the world have thought worthwhile to send their correspondents here in the past. Mr. Oliver is a live man and will give his paper correct information, we think.

FINANCIAL SITUATION.

THE MANAGER OF THE BANK OF MONTREAL ON IT.

He also says the Prospects of the Northwest Territories are Very Good.

MONTREAL, June 5.—The annual meeting of the Bank of Montreal was held today. The profits this year were two per cent. less than last. General manager Buchanan gave a review of the situation, referring to all its phases and reviewing the trade of the year. He uttered a grave warning against the over extension of the speculation system and the long credit, which prevails in Canada, adding materially to the hazards of business. The crop prospects are not regarded as very cheering, but fortunately Canada is not so dependent on crops as she used to be as cattle and dairy products are producing a good deal of money. The prospects of the Northwest at present are very good. The extent of ground broken up this year is much greater than last and if the crop is only a fair one, Manitoba and the Northwest will contribute largely to the prosperity of the country.

Regina Delays.

From the Journal.

Mr. A. W. Ponton, Indian Department surveyor, left on Monday night on a four months' trip through the Indian reserves east and north of Winnipeg.

A large number responded to Mrs. Dewdney's invitation on Thursday last. Previous to the reception, His Honor entertained at a dinner at the Council Chamber, when about twenty gentlemen sat down.

Commissioner Herchmer left for the east on Monday night. He went to Winnipeg and will return very soon.

Constable Armstrong got hurt on the head the other day while leading one of the bronchos; his wound is not very severe.

Nine recruits enlisted in the N. W. M. P. during the past week. They report work to be very scarce down east.

Inspector W. G. Matthews, Acting Adjutant at headquarters, left on Monday night's train for Lethbridge in charge of five conscripts. Inspector Matthews will return to headquarters shortly.

A shipment of 36 bronchos, recently purchased by Commissioner L. W. Herchmer, arrived from the west on Friday night, and were at once driven to the barracks. The animals are looking very well and the only fault particularly remarkable in them is their "bucking nature."

Happenings at Lethbridge.

From the News.

Four more new settlers, representing three families, arrived at Lee's Creek during the past ten days. As soon as they get their lands located their families and stock will be brought in from Utah.

The output of coal from the mines here for the month of May was the largest ever got out, being somewhere in the neighborhood of 300 tons daily. Six trains a day (Sundays excepted) have been kept running carrying coal to points east of here.

Before F. Champness, J. P., Wesley Atkins was charged with maliciously destroying a dog, the property of Mrs. White-Fraser, and was sentenced to pay \$50, the value of property destroyed, and \$100 and costs as a penalty, from which decision he appealed.

A ferry has been built and put on the river at Kipp by Messrs. Long & Urch. This will fill a want which has been very much felt all spring and be a great help to traffic between here and McLeod. So far this year, when the river was not fordable, passengers and mails had to be conveyed across in a small boat.

SINGLE FARE.

What the C. P. R. will do for Calgary's Celebration.

The Canadian Pacific will assist the people of Calgary in making their Dominion Day celebration worthy of the occasion and will give all the people along their line an opportunity to attend. This is the gist of a despatch received this morning by Mr. Alex. Lucas, chairman of the sports committee from Mr. Whyte, Superintendent of the C. P. R. The telegram states that the railway will make a rate of a single fare to Calgary and return from Medicine Hat, Vancouver and New Westminster inclusive. Horses by the car load will be carried at single fare for the return trip provided they do not change owners. There will be no reduction on anything under a carload of horses. Full fares will be charged on the horses to Calgary and a free ticket for the return trip issued here. All the preparations for the celebration are well under way and widespread interest in the event has been aroused.

Heavy Rain in Nebraska.

OMAHA, Neb., May 30.—For two days the Mission River Valley from the Black Hills region in Southwestern Dakota to

Pacific Coast News.

SAN FRANCISCO, May 30.—Lieutenant H. S. Karr, who arrived by the city of Peking a few days ago leaves tomorrow on a journey of exploration in the extreme north of Canada. John Nelson has filed a suit against the Nevada Bank, John W. Mackay, James C. Flood, J. P. Jones, the Comstock Mill and Mining Company, and the consolidated California and Virginia Mining Company et al. Nelson alleges that Mackay, Flood and Jones, who own a controlling interest in the Consolidated Virginia had ore from that company's mines crushed at the mills of the Comstock Mining company, which they also own. On this ore they charged from \$2 to \$3 more for milling than other mill companies would have charged, thereby defrauding the other stockholders out of fully \$300,000. In addition to this, the defendants, as directors of the Nevada Bank, charged a commission for the sale of the bullion, whereby they again swindled the stockholders out of \$300,000. Complainant asks that the defendants be compelled to account for these sums, and that all contracts between the Consolidated Virginia and the Comstock Company, and between these companies and the Nevada Bank be declared void.

The steamer City of Sydney arrived this evening, twenty-five days from Hong Kong sixteen days Yokohama, with 700 Chinese, thirty-nine white and seventeen Japanese passengers. VICTORIA, B. C., May 30.—The caterpillar pest is becoming alarming, everything in the shape of green leaves on all kinds of trees in the city and vicinity is one living mass of caterpillars. Some orchards are stripped quite bare. The fruit crop round the city will be ruined for this year; some persons recommend introducing sparrows as it is said that they will soon clean the caterpillars off.

Mrs. Belanger carries a stock of fruit and confectionery valued at \$3,000 and insured for \$2,000. Mr. Borde carried a stock valued at \$1,500 and insured for \$1,000. FRANCE AND CHINA.

Sunday morning's train for Vancouver carried through to the coast among its other passengers Monsieur Chas. Varat a distinguished French scientist and traveller at present intrusted with an important mission by the French Government. Monsieur Varat in the capacity of Explorer delege is on his way to Asia to explore the regions just opened to France by the new treaties negotiated by the government of that country with China, and other Asiatic powers. He is to report particularly on the resources of such portions of Annam, Corea and Tonquin as are being opened to French merchants and the probabilities of extending French trade therewith.

In conversation with a HERALD representative Mr. Varat expressed himself as delighted beyond expression at the Canadian Pacific. He became quite enthusiastic over the advantages the railway offers to France to increase her trade with Asia, which is the great ambition of the French mercantile class at the present time. He remarked that he will pointedly refer to this matter in his report to the ministry and expressed the belief that a very large portion of the increasing trade between France and Asia will pass over this railway.

At the Mercy of the Torrent.

Mrs. Fraser, from South of the Elbow, with her daughter and a gentleman friend had a miraculous escape from drowning on Thursday. They were returning home from Calgary and were crossing the ford, when the horses attached to the vehicle were washed off their feet by the high water, and horses, vehicle and occupants were driven down the swollen current for a distance of fully eight rods. The current then fortunately drifted the outfit into shallow water and the horses getting their footing the whole got safely ashore at Messrs. Lucas & Eastman's ranch, where the alarmed occupants of the wagon were accorded such attention as they required. The torrent washed away several valises containing a quantity of clothing belonging to the party.

Mr. O'Connor Power, the well known Irish M. P., is in town to-day, taking in the sights.

COMMITTED.

One of the Alleged Swindlers Provided for by Mayor Shelton.

Mayor Shelton completed his examination of McCarthy, the first of the two alleged swindlers arrested Saturday night, brought before him. Mr. Costigan appeared for the crown and Mr. E. P. Davis for the defence. The examination resulted in the commitment of the prisoner. The other prisoner Field was before Mayor Shelton this afternoon. The chief of police has handed over to the Mayor some decidedly queer paper money found on the prisoners. Most of the bills were those delusive bills resembling bank notes, used as advertisements, the issue of which has been prohibited by the United States government. Without being looked at carefully they might easily be taken as legitimate and swindlers do not fail to use them to catch the unwary. Several of these notes taken from the prisoners closely resemble fifty dollar bills. The inscription on these, which is printed in the usual combination of script and open type reads as follows: "W. C. Comps First National Amusement Bank. Charter Perpetual, Reserve Fund inexhaustible. Legal tender for fifty cents worth of amusement by the largest institution of the kind in the world. This note is guaranteed by 50,000,000 Americans." The paper is printed in the same colors as American bills and got up in the usual way with two large "50's" in the upper corner. There were several kinds of such bills in the collection and altogether they make a queer lot.

Early Closing at Medicine Hat.

No little complaint is heard from a great many quarters because the early closing agreement is daily violated. A person viewing the town in the evening could not be made to believe an early closing movement had ever been introduced in Medicine Hat. While it seems to be the desire of some to close promptly at 20 o'clock, others do not seem inclined to close till 23 or 24.

OTTAWA, May 31.—A Minister of the Crown stated to-day that Mr. Dewdney would be appointed Minister of the Interior and get the vacant Senatorship for the Northwest.

The doctor also had severe chills and other indications of blood poisoning. Referring to the Halifax commission of 1880, Frye said we were represented on that commission by a weak old man, no more fit to cope with Sir John Macdonald and Sir Charles Tupper than Secretary Bayard was to cope with Joseph Chamberlain. (Laughter.) Further discussion of the treaty was postponed until June 11th, to allow the Democrats to attend the national convention.

Beef to be delivered "on foot" one or more animals at a time, upon call of the Agent of the district, and at times and points designated by him—the manner of butchering and quality of beef to be the same as described in Department Schedule for 1888-9, as required for treaty 7—the whole animal, including the hide, to be the property of the Government, and to be paid per pound of the net weight of the four quarters of each animal, which, of course, can only be ascertained after it is killed and dressed.

Should an Agent at any time during the hot weather require delivery of a smaller quantity of beef than would be obtained from a live animal, the delivery may be made of dressed meat, instead of "on foot" and in that case, the Contractor will not be required to deliver the offal. Deliveries to commence immediately after completion of contract.

Tenders will be received for any quantity, not less than 1000 lbs. of the above.
Each tender must be accompanied by an accepted cheque, in favor of the Indian Commissioner for Manitoba and the Northwest Territories, or the equivalent in cash, for at least 5 per cent of the amount of the tender, which will be forfeited, if the party tendering, declines to enter into a contract, when called upon to do so, for the whole or any portion of his tender, or if he fails to complete the work contracted for.

If the tender be not accepted the cheque or cash deposited, will be returned. Deposits will be returned to successful tenderers upon satisfactory completion of their contracts.
Contractors will be required to furnish two approved sureties, in the amount or the value of their contract, for the due fulfilment of the same.
The lowest or any tender not necessarily accepted. (Signed) M. DEWDNEY, Commissioner.
